

CAN WE MAKE THIS HAPPEN?

Lyrics © Pat Smillie

Can we make this happen?
It's a long time overdue
Some saints don't believe in heaven
As much as I believe in you...me & you

This flame is all consuming
So please don't turn me to the door
Can we make this happen?
A love like this you can't ignore

Cause if this evening I should leave here
Only one day to find I'm lost
I could never forgive myself
I could not cover the cost

Can we make this happen?

(solo)

Can we make this happen?
Or do you know me all too well
Please keep me from talking
You're the only story I can tell

Some notions are like rainbows
They cross your mind after a storm
Lovers burn down like candles
Trying to keep each other warm

One truth is all consuming
Baby, don't turn me to the door
Can we make this happen?
Nobody ever loved you more

Can we make this happen?

We won't know if our love is real until you trust me
We won't know if our love is real until you trust me
We won't know if our love is real until you trust me
We won't know if our love is real until you trust me
