

THE COMEBACK

Lyrics © Pat Smillie

Well, I moved to the city without you
Pretty soon my plans fell through
I guess I just lost my way
Ran out of songs to play
I need a comeback, darlin

Well you know there's people all around me
Still sometimes I still get lonely
Ain't nothing that I can do
Need a little light to see me through
I need comeback, darlin

Once I finally got it going
You know the going got too tough
When I think of what you said to me
I just can't give up, I won't give up

Cause I remember all the things you said
I keep tripping on the truthfulness
I think I just lost my way
But tomorrow's another day
I need a comeback, darlin'...(it's now or never baby)

(Solo)

Once I finally got it going
You know the going got too tough
When I think of what you said to me
I just can't give up, I won't give up

Cause I remember all the things you said
I keep tripping on the truthfulness
I think I just lost my way
But tomorrow's another day
I need a comeback, darlin'...(it's now or never baby)

Look what it's done, tell me what I'm gonna do?
Look what it's done, tell me what I'm gonna do? (I might have spread myself too thin)
Look what it's done, tell me what I'm gonna do?
Look what it's done, tell me what I'm gonna do? (you know the real come the real thing go)
