

THIRTEEN BELOW ZERO

All lyrics © Pat Smillie

Thirteen below zero, you know it's cold as Hell
She said she changed her mind
She said she wished me well
It's thirteen below zero, shouldn't be sleeping by myself

Thirteen below zero, four nights in a row
Josie said she had enough
She said I better go
So come on, cuddle up, cuddle up now baby, its thirteen below zero

(guitar solo)

Thirteen below zero, lets just sleep on it tonight
Cause the bitter wind is blowin' cold
The river's turned to ice
If I can't stay here with you, gonna die outside tonight

Thirteen below zero, Mean old woman is cold as Hell
She said she changed her mind
She said she wished me well
It's Thirteen below zero, tonight I'm gonna need some help

Thirteen Below, Thirteen Below Zero
Thirteen Below, Thirteen Below Zero
Thirteen Below, Thirteen Below Zero
Thirteen Below, Thirteen Below Zero
