

JOSEPHINE (Smillie / Ford)

CHORUS

Josephine Josephine
I could have loved you sight unseen
If only you had just told me the truth
Josephine Josephine
Them old ghosts still call to me
Sayin', "You can't keep what don't belong to you."

Josephine she taught me
Every song I know
She said "Time, will honor
No man in his prime."
Until one fine night
She whispered soft and low
She swore to always be
A friend of mine

CHORUS

**I loved Josephine
Without question
And I know she loved me
The best that she knew how
Until an unmade plan
Just forced my hand
So help me, Josephine
What will we do now?**

(SOLO)

BRIDGE

**I learned the hard way
I had so much to learn
You play with fire
You're just gonna get burned**
